

# StrataClean™ Pulse

## The ultimate self-cleaning air filter for gas turbines

- Modular design reduces installation costs.
- Compact footprint saves valuable space.
- Outstanding filtration efficiency protects investment and extends service intervals for severe environments.
- Single source guarantee for clean, quiet, efficient operation of your gas turbine.
- Integrated design simplifies project management.

StrataClean Pulse is a member of the new

### StrataClean™

family of gas turbine air filters with

### StrataPore™ AB and SoliPore™ AB

filtration media for the ultimate in gas turbine protection. Universal Silencer offers complete system integration with StrataClean inlet filtration, inlet silencers, exhaust silencers, transitions, ducts, and structural steel. StrataClean Pulse offers the same high performance as the StrataClean barrier air filter and adds an automated cleaning system for dislodging particles from the filters.
