

# Universal Silencer

PROMOTING A CLEAN  
AND QUIET ENVIRONMENT.

Air Filtration and Noise Control

We can help with acoustic measurements and advise you in the selection of the best solutions for your application. Above left: Measuring noise levels in the field at 100 ft. Above right: Measuring silencer performance at the source.

**U**niversal Silencer specializes in industrial air filtration and noise control products for a wide variety of power, process, and pneumatic applications:

- Rotary positive blowers and vacuum pumps
- Gas turbine and reciprocating engines
- Centrifugal compressors
- High pressure vents and blowdowns
- Rotary screw compressors
- Pressure reduction valves
- Industrial fans
- Steam ejectors

Our in-house technical and manufacturing facilities give you access to a wide range of technical expertise and production services. We are well-known for our commitment to professional design and engineering, product reliability, thorough testing, prompt customer service and support, and fast delivery from stock.

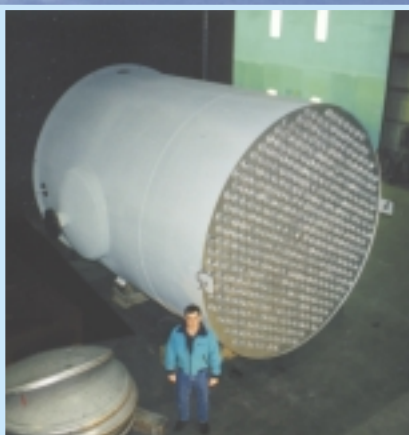

## 608.873.4272

Fax: 608.873.4298  
Internet E-mail: [US@universal-silencer.com](mailto:US@universal-silencer.com)  
On the Web: [www.universal-silencer.com](http://www.universal-silencer.com)

Our modern laboratory for filter and silencer testing is used to optimize selection recommendations. Data collected under a variety of operating conditions is compared with data collected in the controlled environment of the Fleetguard/Nelson Product Development Center.

# FROM DESIGN TO DELIVERY

**U**niversal Silencer maintains two modern manufacturing facilities in Wisconsin that are fully equipped with state-of-the-art equipment and technology. The Muscoda plant is 28 ft high and has a lifting capacity of 60,000 lb. The Muscoda warehouse is fully stocked to meet most immediate needs. The Montello plant has a 40-ft eave height and a lifting capacity of 100,000 lb.

Our complete in-house technical and manufacturing services simplify project tracking and delivery. Knowledgeable, experienced staff members carefully monitor your project from start to finish.

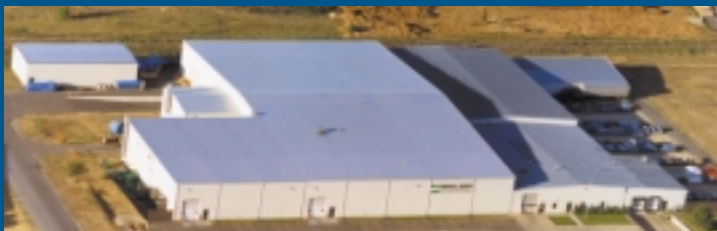

The operating philosophy of Universal Silencer employees is to meet and exceed customer needs and expectations for innovative product design, superior product quality, and unsurpassed support and service.

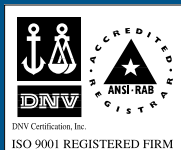

## UNIVERSAL SILENCER

Our corporate headquarters are located in Stoughton, Wisconsin, just southeast of Madison, the state capital. This new building houses administration, sales, and engineering departments.

Manufacturing facilities are in Muscoda (above), 75 miles west of Stoughton, and Montello (below), 70 miles north.

Our products have been used to protect, quiet, and optimize the performance of industrial equipment for 40 years. We maintain a fully equipped testing facility to qualify filters and silencers. We are an ISO 9001 registered firm and ASME Code certified.

*Keeping  
industrial equipment  
clean and quiet.*

# AIR FILTRATION & NOISE CONTROL for industrial equipment and gas turbines

Contact us for more information about our complete line of industrial filter-silencers, air filters, and silencers:

- Rotary positive blower silencers, catalog 244-D
- Acousti-Tube™ and Acousti-Ring™ vent silencers, catalog 243-C
- Acousti-Tube™ and Acousti-Ring™ vent silencer specification sheet, form 88-0063
- Air filters and filter silencers, catalog 241-A
- Cartridge air filters and filter silencers, catalog 242-B
- CB compact blower silencers, catalog 255-A
- CBF/CBFI compact blower filter-silencers, catalog 261-A
- Reciprocating engine silencers and filters, catalog 246-A
- Absorptive silencers, catalog 245-B
- Compressor silencers and filters, information provided by application
- Vacuum pump separator silencers, catalog 222-B
- Industrial fan silencers, catalog 249-A
- Steam ejectors, pressure reduction valves, and other special applications
- Gas turbine filters and silencers, catalog B-249-A
- Acousti-Tube™ gas turbine silencers, catalog 260
- Acousti-Tube™ gas turbine silencers, technical bulletin 94-1315
- StrataClean™ air filtration systems, catalog 268
- StrataClean™ Pulse air filtration systems, catalog 269
- StrataPore™ AC and SoliPore™ AB filter media for StrataClean, catalog 266
- StrataPore™ AB and SoliPore™ AB filter media for StrataClean Pulse, catalog 267
